

PAINTING A BETTER TOMORROW - One Day Volunteer Blitz Event

Saturday, March 12, 2016

THE PBT STORY...10 th ANNIVERSARY

Painting a Better Tomorrow is a one-day, volunteer blitz program that began in 2006. The Home Builders Foundation coordinates teams of volunteers from the home building community to provide painting, cleaning and minor repairs to facilities owned or operated by non-profit service providers serving the homeless in the greater Portland Metropolitan region. In the past 10 years, more than 50 nonprofit agencies in the Portland area have received much needed maintenance and mini-makeovers courtesy of dedicated volunteers and businesses.

The Foundation's shelter building arm, **HomeAid Portland**, builds or renovates dignified housing for homeless families so they can rebuild their lives. This shelter care, and one-day volunteer blitz program addresses the growing need for maintenance to facilities AND allows industry leaders to directly contribute to the community by doing what they do best.

This is a terrific opportunity to get involved in your community. Non-profit homeless care providers will submit applications to receive assistance from home building professionals involved in your community. The impact of our volunteer blitz does not stop with the shelter residents. Volunteers walk away with a profound sense of accomplishment and pride of work. Our community is united and enhanced by the sharing and building of HOPE and a safe place to call HOME.

If you know of a potential one-day project, or want to get your organization involved with our important work please contact:

Home Builders Foundation

Attn: Painting a Better Tomorrow

15555 SW Bangy Rd., Ste 301 | Lake Oswego, OR 97035
